DeeDee and Kelly have been friends (and former co-workers) for over 20 years. Kelly currently works in Human Resources and Personnel, and DeeDee works in affordable housing at Bend-Redmond Habitat. Both share the love of creation and design and have worked together on creative projects such as "Rubbish Renewed" Eco fashion design, jewelry, and accessories. Both love to upcycle and create functional and fashionable art. The "idea queens" are finally taking their new designs to the public.
